

STAINLESS STEEL KEY REEL

HEAVY DUTY STAINLESS STEEL KEY REEL

PAGE 1 of 2

Product Specifications

PR1KR | Revised March 2015

Product Name: Stainless Steel Key Reel

Product Description: These heavy duty, spring retracting key reels feature a stainless steel casing, belt clip, cord and split ring, with internal components also made from other metals. These products are manufactured specifically for environments where “due diligence” must be shown in the prevention of foreign body product contamination. The cords are manufactured from 1mm stainless steel and have a choice of cord lengths.

Product Availability:	Diameter Reel	Cord Length	Pulling Strength	Product Code
	52mm Diameter	110cm / 43" Cord	200g	PR1KR55505MS
	40mm Diameter	60cm / 24" Cord	120g	PR1KR35401MS

Batch Quantity: 1

Batch Weight: 0.100kg (110cm Cord / PR1KR55505MS)
0.050kg (60cm Cord / PR1KR35401MS)

Product Advantages:

- ✓ Detectable by conventional metal detection & x-ray inspection systems
- ✓ Displays all due diligence in preventing foreign body contamination
- ✓ Can be used to form part of HACCP and BRC procedures
- ✓ Ideal for keeping tools and other items both handy and secure

Metal Detectability

The whole outer of the Stainless Steel Key Reel is manufactured from stainless steel with internal components manufactured from other metals. Subject to correct calibration of metal detection / x-ray inspection systems, this product should be fully metal detectable and x-ray visible. Detectability performance will vary based on, but not limited to the following factors:

- Detector Calibration Levels
- Food Product Type (E.g. Wet, Dry, Frozen, Liquid)
- Aperture Dimensions
- Contaminant Orientation

For this reason BST recommend that all our products be thoroughly tested on your metal detection systems by a trained and certified professional. It may be the case that your equipment needs to be recalibrated in order to reliably detect this product and its fragments. Such a professional should be available by contacting the manufacturer of your metal detection system.
